WE SPECIALIZE

With a team of industry experts dedicated exclusively to the Architectural, Engineering and Design Industry.

WE ANALYZE

In order to provide experienced consultancy and guidance to help you make smart risk management decisions.

WE INFORM

Through formal educational trainings and informal discussions and service engagements.

WE ADVOCATE

By working on your behalf in program development, high level claims support, and contract negotiations.

HOW WE SERVE YOU

WE COMPETE

To make sure your insurance program performs efficiently and effectively by continually evaluating the insurance landscape on your behalf.

INNOVATIVE RISK SOLUTIONS FOR THE DESIGN & ENGINEERING COMMUNITY

We see tremendous opportunity in adhering to a specialized, client-focused service model. Through this commitment to ongoing investment in intellectual capital, we will position Kraus-Anderson Insurance as the vanguard of sophisticated and innovative risk management services delivered through a dedicated team of experienced and insightful risk professionals.

PROFESSIONAL LIABILITY

We work with premier Professional Liability Insurance carriers to provide market-leading options for insuring design and engineering exposures. It is critical to know the differences in coverage and to have confidence in the service you depend on in the event of a claim.

MANAGEMENT LIABILITY

Regardless of size, organizations are exposed to liability from management's actions and decisions. Directors & Officers, Employment Practices, Fiduciary Liability and Commercial Crime can help to protect against these significant risks of financial loss.

PROPERTY & CASUALTY

Through a targeted selection strategy, we are able to identify competitive carriers for a given risk, then work closely with them to develop a customized and sophisticated coverage program designed to respond effectively to a client's unique set of risks and insurance requirements.

WORKERS COMPENSATION

While other brokers may say they do everything possible to control this mandated expense, most are limited in the scope of their services and the depth of their expertise. We offer a comprehensive, effective, and cost-efficient way to lower Workers' Compensation insurance costs.

CYBER RISK

Our focused, dedicated application of cutting edge cyber risk management techniques brings our clients a sense of clarity and control in a complex digital environment.

OUR DEDICATED A&E TEAM

THE PEOPLE BEHIND OUR AGENCY MAKE ALL THE DIFFERENCE.

Brian Kampf

Vice President, Architects & Engineers Practice

Brian Kampf possesses over 35 years of experience in the insurance industry. He is well versed in the handlings of National and large accounts, specialty risks, Professional Liability, and D&O.

She has extensive claim experience in professional liability and workers' compensation. For the last 12 years, Johnna has been dedicated to working with the design community in all facets of insurance and risk management.

Heather Paulsen

Account Executive

Heather Paulson has more than 18 years of insurance agency experience. Her professional focus has been primarily on property/casualty and professional liability insurance coverages for design professionals. Heather displays an emphasis on assisting small firms; individuals and start-up companies.

UNCOMMON EXPERTISE

Kraus-Anderson is committed to offering uncommon expertise to businesses of all sizes in the design and engineering industry. We know businesses like yours depend on accurate information to make better decisions. By deploying effective analytic strategies, we can leverage your information into forward-looking insights. These insights can then help shape highly successful management strategies that are unique to your organization.

Our in-depth knowledge of the design industry is enhanced by our memberships in such esteemed associations as the American Institute of Architects (AIA), a/e ProNet and the American Council of Engineering Companies (ACEC) and Minnesota Society of Professional Engineers (MnSPE). We are recognized for our expertise by these respected associations.

AIA of Minnesota

AIA is the voice of the architecture profession. AIA Minnesota is the professional association for architects in that state. It has been the leading professional association for licensed architects, emerging professionals and allied partners for over a century.

a/e ProNet

a/e Pronet has been meeting the insurance and risk management needs of design professionals since 1988. A trusted resource for architects and engineers, it is an independent source of professional liability, risk management, loss prevention and continuing education information.

ACEC

With roots dating back more than 100 years, the ACEC is a federation of 52 state and regional councils representing more than 600,000 engineers, architects, land surveyors and other specialists. Its mission is to strengthen the business environment for member firms through advocacy, action and education.

MnSPE

The Minnesota Society of Professional Engineers (MnSPE) is a professional association representing over 1,000 licensed Professional Engineers (PEs), certified Engineers in Training (EITs) and engineering students throughout Minnesota.

OUR CORE VALUES

PASSION

INTEGRITY

EXPERTISE

A man with grey hair and glasses, wearing a dark suit, is leaning over a desk. He is looking down at a white architectural model of a building. On the desk, there is a white mug, some papers, and a pencil. The background is blurred, showing what appears to be an office or construction site.

GO BEYOND A POLICY

EXPLORE OUR INTEGRATED RISK MANAGEMENT CAPABILITIES
